FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

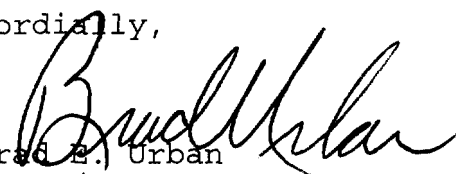

To Whom It May Concern:

I do not favor dropping the "1 Plus" dialing. By eliminating "1" on toll call outside our normal calling zone I can expect my telephone cost to increase.

This is a costly method that the telephone companies are attempting to implement to increase their corporate profits.

This is a decided disadvantage to every business. I want to retain "1 Plus" dialing.

Cordially,
